AMT NEXT GEN AWARDS

CELEBRATING THE NEXT GENERATION
OF MAINTENANCE PROFESSIONALS

Recognition Matters — Nominate a Next Gen Maintenance Professional

Aircraft Maintenance Technology magazine's November/December issue will recognize 40 individuals from the aircraft maintenance industry for their contributions to the industry and a "job well done." It is not a ranking, but rather a listing of individuals who have shown initiative, a capacity, or have made an impact to the aviation maintenance industry.

Whether you work in general aviation, business aviation, airlines, MRO, rotorcraft, military, or education, let the industry acknowledge you or your colleagues for dedication to the aviation industry. If you or your colleagues will be 39 years old or younger on November 1, 2015, you are eligible to be nominated for *Aircraft Maintenance Technology* magazine's Next Gen Awards.

Criteria for selection include such things as job commitment, industry involvement and contribution, achievement in his or her position and innovation in his or her field. While no candidate may possess all criteria, we are looking to reward those who deserve recognition for their efforts. Upon selection, the winners will be contacted directly by AMT.

Nominate Today!

www.surveymonkey.com/s/AMTNextGenAwards

NOMINATION DEADLINE:
AUGUST 31, 2015

UNGLAMOROUS. UNAPPRECIATED. UNEQUALED.

Sure, their starter may look like a Hartzell starter – but that's where the similarity ends. We've introduced a list of features and capabilities that set the industry standards for performance, reliability and value. And while the competition has done its best to keep up, no matter how you look at it, there is still no equal to a new Hartzell starter.

Just a few of the benefits of Hartzell starters:

- The industry's best duty-cycle performance
- Low current draw requiring less battery power
- Self resetting torque limiter for automatic kick-back protection (E-Drive)
- Integrated contactor eliminates the need for external contactor (X-Drive)
- Minimal back-torque on Continental starters – protects starter adapter

BEYOND EXPERIENCE

There's Skill, Intellect & Passion.

You Need All Of Them For Exceptional MAINTENANCE.

At West Star we value the importance of experience and understand its duality. Specifically, how our experience directly impacts yours as the customer. But there's more to it than just claims of hands-on, day-to-day experience.

Beyond experience, there's skill, intellect and passion. These are some of the characteristics that make experience truly valuable to our customers. These are the characteristics that allow our experience to

exceed your every expectation and provide truly exceptional aircraft maintenance services.

Contact West Star today for your next aircraft inspection, repair, modification or upgrade to see just how valuable real experience can be.

West Star Aviation. Going beyond experience to exceed your expectations.

Varco Pruden's Attractive & Affordable AVIATION INDUSTRY FACILITIES

We help get your building plans off the ground. Whether you need a hangar, aircraft maintenance, FBO, or air cargo facility, Varco Pruden Buildings and their coast-to-coast network of authorized builders work as a team to provide a high quality building, on time and on budget.

Varco Pruden, a pioneer in the steel framed building industry, can offer your organization:

- ✦ Lower material and labor costs.
- ✦ Faster completion schedules.
- ✦ Flexible designs for interior space.
- ✦ Choices of exteriors such as brick, stucco, glass, wood or steel panels.

And, our nationwide network of more than 1,000 independent authorized builders have decades of steel construction experience that you can rely on. With our value-engineered steel framed building systems, recycled material content and long-life "cool paint" choices, VP Buildings can help you meet sustainable construction and LEED certified project plans as well. Energy-efficient structures can help curb operating costs.

Visit us online at www.VP.com/ad/AMT to request this free brochure about Varco Pruden's aviation and transportation facility capabilities!

www.jet-care.com

Spectro | Jet-Care offers a comprehensive range of services, fluid and debris analysis and engine trend monitoring by Gas Path Analysis all developed to identify operational issues at the earliest possible stage. With over 35 years of specialist knowledge and its unique partnership approach, clients can rigorously monitor the condition of equipment — clearly, accurately and efficiently. The United Kingdom Accreditation Service (UKAS) and Swiss Accreditation Service (SAS) ensure its laboratories comply with the ISO/IEC 17025:2005 standard. Lloyds Register Quality Assurance (LRQA) ensures that its Jet-Care

Gas Path Analysis service complies with BS EN AS9100 and ISO9001:2008 Quality Management System standards. For technical support contact Alan Baker, sales and marketing manager (Global) at +44 (0) 1256 704000 or alanbaker@spectro-oil.com or Josh Wagner, sales & marketing (USA) at (973) 292-9597 or joshwagner@jet-care.com. All three of its laboratories in the UK, USA and Switzerland can undertake analysis 24/7/365.

AMT NEXT GEN AWARDS

CELEBRATING THE NEXT GENERATION
OF MAINTENANCE PROFESSIONALS

Recognition Matters — Nominate a Next Gen Maintenance Professional

Aircraft Maintenance Technology magazine's November/December issue will recognize 40 individuals from the aircraft maintenance industry for their contributions to the industry and a "job well done." It is not a ranking, but rather a listing of individuals who have shown initiative, a capacity, or have made an impact to the aviation maintenance industry.

Whether you work in general aviation, business aviation, airlines, MRO, rotorcraft, military, or education, let the industry acknowledge you or your colleagues for dedication to the aviation industry. If you or your colleagues will be 39 years old or younger on November 1, 2015, you are eligible to be nominated for *Aircraft Maintenance Technology* magazine's Next Gen Awards.

Criteria for selection include such things as job commitment, industry involvement and contribution, achievement in his or her position and innovation in his or her field. While no candidate may possess all criteria, we are looking to reward those who deserve recognition for their efforts. Upon selection, the winners will be contacted directly by AMT.

Nominate Today!
