All Things GSE

We've got what you need in print, on your computer or on your mobile device.

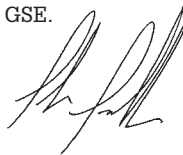

By Steve Smith

Welcome to the 2013-2014 Worldwide Directory, our annual print resource for GSE products and services.

There's almost 300 company listings, along with a handy index to help you make your next buying decision from "Air Starts & Accessories" to "Vehicle Lifts & Maintenance."

But there's even more information at www.AviationPros.com at our online Buyer's Guide. We've recently revised our Buyer's Guide to include such features as suggesting related products and companies and providing you with a better interface to ask for more information about the products and services you choose. The Buyer's Guide looks even better on smart phones and tablets, too.

So keep this issue close by to thumb through when you're in the market for new and used equipment and all the parts and pieces that keep your GSE running. Or go to www.AviationPros.com/Directory and check out our new, one-stop shop for all things GSE.

Steve Smith

CLEAR COMMUNICATION FOR GROUND SUPPORT OPERATIONS

David Clark Company Series 9900 Wireless Headset Communication Systems provide clear communication and safety for crew members during pushback, de-icing and a variety of ramp operations. Rugged components, including wireless gateways, controllers and headsets, allow crew members to communicate with greater mobility, without being tethered to equipment.

Less weight. More value.

Specialized cargo and transport solutions from AAR.

AAR, with its Telair and Nordisk subsidiaries, offers a full line of main-deck and lower-deck cargo systems and a variety of transport products, including the lightest-weight containers in the industry — with the highest strength-to-weight performance, lowest repair frequency and lowest total cost of ownership.

Our cargo and transport solutions enable increased payload and fuel savings and include the most advanced fire containment, container tracking and condition monitoring technologies available today, all backed by a global aftermarket support network.

The Advance Metalworking Co., Inc. manufac-

tures the Wing Jack Elevating Platform Trailer. This 4,000-pound payload capacity trailer is specifically designed to carry aircraft wing jacks only. For heavier loads, the unique Lift-a-Load Elevating Platform Trailer is the ideal choice. Lift-a-Load trailers are available in eight different models, both single and dual axle with capacities ranging from 4,400 pounds to 15,000 pounds. The Lo Riser Inclining Platform Trailer can be hydraulically lowered to ground height. The built-in ramp provides a minimum angle, either 4 or 5 degrees depending upon model, to allow easy, drive-on access.

Handle remote aircraft emergencies with Malabar's Rapid Deployment Jack Set

Malabar's Rapid Deployment Tripod Jack Set can be sent to any location in emergency situations where full service facilities are not available. The four 80-ton jacks are suitable for use on a wide range of Boeing and Airbus aircraft.

The four tripod jacks are conveniently packed on two standard 96" x 125" air cargo pallets. The jacks can be rapidly deployed to any remote airport.

One of the Malabar rapid deployment jacks assembled and in use at a training exercise.

EXCEPTIONAL.

SERVICE FROM THE GROUND UP.

Professionals that get the job done right.

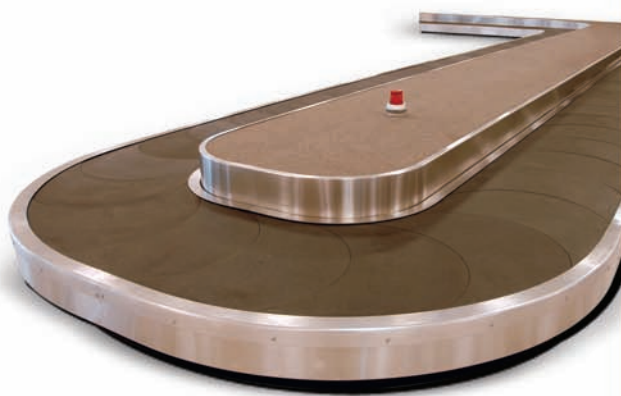

From conducting routine maintenance to responding immediately to a mechanical emergency, when time and reliability are critical, you can count on ASIG to deliver. Our Technical Service department is made up of a team of highly skilled and trained specialists. Because programs and procedures are only as effective as the people providing the actual services, ASIG emphasizes hiring the most qualified electricians, mechanics, HVAC and technical specialists. Proprietary asset management software and national bulk purchasing programs for parts and supplies allow us to provide timely, efficient and reliable service while maximizing our customers' budgets. Our programs cover routine and preventive maintenance for fleet vehicles, GSE equipment, baggage handling systems, jet bridges and other airport facility equipment such as escalators, moving sidewalks, terminal doors and more.

Douglas Battery

500 Battery Drive
Winston Salem, NC 27107
United States

Phone: 800-368-4527

Website: www.douglasbattery.com

Legacy batteries and chargers are designed to meet the high power demands of today's ground support equipment. Airports use various types of battery-powered vehicles to support the operations of the aircraft between flights when it's on the ground at the terminal. Ground crews work diligently to prepare the plane for its next flight. Time is of the essence, and no one knows the importance of reliable power more than airport ground crews.

UCAR™ Aircraft Deicing and Anti-icing Fluids from The Dow Chemical Company help protect the safety and on-time performance of winter-weather flight operations. Dow's product line includes Type I deicing fluids and Type IV deicing and anti-icing fluids, in propylene glycol and ethylene glycol formulations to help meet specific user requirements.

**MODEL MT65P21
"EXPRESS HEAT" DEICER**

The "Premier" Model MT65P21 "Express Heat" Deicer utilizes the Versalift Extended Reach Model VST6000 Aerial lift, providing 65' of working height. More important, the MT65P21 incorporates the *Premier* boom forward design to provide the maximum amount of reach off the front of the vehicle utilizing the rapid deploy down riggers. During mobile operations, side reach of 34' and vertical reach of 46' can easily be accomplished.

Premier
ENGINEERING & MANUFACTURING, INC.
Simple, Dependable and Affordable

"Express Heat" reliability, easy access maintenance, extend reach capabilities, and lowest cost of operation is why we are the "Premier" deicer manufacturer.

GARSITE

Since 1952, Garsite above-ground storage systems have been

the refuellers of choice by major in-to-plane fueling companies, oil companies, airlines, freight distribution companies, and fuel marketers around the globe. You will find Garsite refuellers in-service every day at nearly every major U.S. airport and in more than 80 countries on six continents. Garsite manufactures several models of aircraft refuellers, ranging in size from 750 gallons (2,800 liters) to 15,000 gallons (57,000 liters), and hydrant dispensers with flow rates up to 1,200 GPM/4,500 LPM.

ITW Military GSE - Hobart Ground Systems

11001 U.S. Highway 41 North
Palmetto, FL 34221
United States

Phone: 800-899-1841 • Fax: 941-721-1138

Website: www.itwmilitarygse.com

ITW Military GSE leads the industry in innovative product design for fighter aircraft ground support equipment that includes frequency converters (400Hz, 270 VDC) combination carts with pre-conditioned air; with or without power, shipboard power supplies and battery chargers. Our equipment is available in facility versions as well as mobile flight-line models. We utilize the industry's premier engineering capability along with aircraft manufacturer partnerships to design, build, and deploy the finest ground support equipment available. We have been supporting military applications worldwide since 1972 to include the most advanced fighter platforms such as the F-35 Joint Strike Fighter, F-16 Falcon, F-18 Hornet, F-15 Eagle, F-22A Raptor, the T-50 and C-130 and more.

J

J&B Aviation Services, Inc.

2850 Cordelia Road
Suite 200
Fairfield, CA 94585
United States

Phone: 800-621-0074 • Fax: 707-421-0266

In 1991, J&B Aviation Services, Inc. opened its 2400 square-foot facility in Fairfield, California--35 miles north of San Francisco near the Napa Valley. The company, founded by Alan J. Janis and Bruce K. Warne, filled the void in the marketplace for products and services that the absence of McCormick Morgan Power Systems Engineers had created. J&B's expertise and insistence upon premium quality products promptly gave them the reputation as the industry leader. Their unique 400 Hz cable assembly designs, with options for replaceable noses, swiftly became the most popularly used assemblies both with commercial and government customers. In 2002, J&B became part of the ITW family of companies. J&B Aviation is now located in Santa Rosa, CA and is the exclusive North American distributor for numerous ground support manufacturers.

Lift-A-Loft Corporation has been in business since 1951. Since that time our focus has been on manufacturing aerial work platforms, custom equipment and ground support equipment. Lift-A-Loft manufactures a wide range of heavy duty GSE equipment on our APV (All Purpose Vehicle) chassis. The APV chassis can be configured in many different ways. It can be configured for the following applications: Lavatory/potable water, catering, ambulatory lift, crew van, maintenance lift, high speed tow vehicle or cabin service truck. In addition to the APV products Lift-A-Loft also manufactures a full range of maintenance lifts ranging from 15 feet to 32 feet mounted on commercial chassis.

Website: www.pearcorp.com

PEAR represents the finest products in refueling. We routinely provide custom orders and contracts to the busiest commercial airports, fixed-base operators and refueling services in the U.S. and Mexico. We compete on price, provide quality products and workmanship, and deliver great customer service over the life of the contract. Fueling products are just as vital to the business of operating small rural airfields as they are to the largest airports. That's why at PEAR, we take the same approach to serving hundreds of smaller fields, airports and FBOs as we do large airports. From private operations situated near the outskirts of major urban areas to public fields, we can meet our customers' needs for price, knowledge and delivery.

Without all the parts, There's no GSE.

Sage Parts has the world's largest on-hand inventory of GSE parts for your entire ground fleet. Every part for every brand. What you need, when you need it. And that can mean less downtime, more efficiency, and lower cost. To see for yourself how the global market leader in GSE replacement parts can benefit your ground support operation, contact us today.

RAMPMASTER

CHAMPION OF EXCELLENCE

Rampmaster manufactures Modular Aircraft Refuelers in sizes ranging from 1,000 to 17,500 gallon capacity. The trucks represent a life cycle solution to Refueling trucks, the tanks and pumping systems can be used over and over again by replacing the chassis when it wears out. This eliminates the need to buy complete refuelers in the future. Rampmaster also offers hydrant truck solutions along with a Regenerator that fuels aircraft without the need for fossil fuels, no engine or transmission. (A truly green solution to fueling.)

Stop, Drop and Load®

Load faster and more efficiently with a *Lo Riser Inclining Platform Trailer*.

A flip of a switch hydraulically lowers the deck to ground height providing smooth, drive-on access. The 4 or 5° load angle then allows equipment with as little as a 1/2 inch ground clearance to easily drive up the built-in ramp. But there's more...

- 4 to 1 Payload to Weight Ratio
- High Strength Steel Construction
- Hydraulics Above Decking
- Models with GVWR of 8,100, 13,400, 15,400, 17,550 & 19,850 lbs

LO RISER
Inclining Platform Trailers

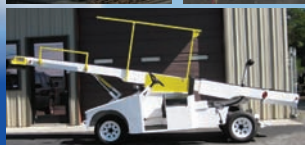

*Load angle depends on model.

Email: sales@unitronlp.com

Unitron is a leading manufacturer of solid-state 400 Hz, 28 VDC, and combination AC-DC Ground Power Units. Unitron GPUs are the smallest and lightest in the industry, and are available in mobile, towable, bridge-mounted or free standing configurations. Unitron also manufactures diesel and all-electric pre-conditioned air (PCA) systems, including a combination 4-in-1 PCA/GPU for regional aircraft. Heating, cooling, 400 Hz and 28 VDC ground power are provided, all from a single integrated unit. Unitron's product line includes Ground Power Units (GPUs) and Preconditioned Air (PCA) systems to support military, commercial and business aircraft, Stationary Converter Systems for use in industrial and facility applications, Frequency Converters for use onboard aircraft and in military shelters, and Rack Mountable and Bench Converters for operation in development laboratories and production test areas.

Velcon Filtration Division, a Parker Hannifin Company

1210 Garden of the Gods Road
Colorado Springs, CO 80907
United States

Phone: 719-531-5855 • **Fax:** 719-531-5690

Website: www.velcon.com

Email: vfsales@parker.com

Velcon manufactures filtration and separations technologies for use in aviation fuel, diesel fuel, electric utilities and military. In 1953, Velcon was established in response to the aviation fuel market's growing need for clean aviation fuel. Since then, Velcon has continued being a recognized leader—ensuring clean dry fuel for the aviation industry. Headquartered out of Colorado Springs, Colorado, Velcon has manufacturing facilities throughout North America and Europe. Our network of global distributors help us provide excellent support and service to our customers all around the world.
