Innovations That Work

PAGE, known as the industry leader in innovation and for bringing new products to market, is proud to introduce the PAGE **PCA610**, the ultimate Pre-Conditioned Air connector in the market today. Its progressive design is both functional and rugged. With a built-in swivel, "high flow" screen and the industry's best and only "snap-in" gasket, no other PCA connector in the industry incorporates all of the design elements into one connector. Built with input from the airline industry, the **PCA610** is the premier connector in the world today.

PCA650 Snap-in replaceable gasket

No need to remove the connector from service, simply SNAP-IN a new PCA650 durable gasket. No caustic glue, scrapping, or cure time. You're back up and running in minutes!

PCA610 Connected to Boeing 787

Superior air flow and protective screen

Provides the largest internal diameter of any connector, maximizing air flow into the aircraft. No internal nuts or bolts to obstruct air flow. The built in "high flow" F.O.D. screen prevents debris from entering the aircraft.

Years of reliable service

Built of high impact UV resistant nylon, the innovative modular design of the PCA610 is resistant to fuels and chemicals and made to last.

Integral spinning PCA hose connection

Eliminates those bulky "bolt-on" swivel adaptors along with the added hardware. Made of high impact UV resistant material, the rotating ring connection eliminates twists and maximizes airflow. The extended ring provides a greater connecting surface for attaching your PCA duct.

PAGE Industries has been listening to their customers to determine, design, and introduce what the airline industry wants and needs. With products like a stronger, better and easier to install Baggage Chute; and the finest new analog or digital 400 Hz Resistive Load Banks in a variety of KW ratings with WIFI and LAN.

THE NEW WASP, INC.

WASP *IS NOW* FAST

GLOBAL SOLUTIONS

We're getting bigger and faster to serve you even better. **WASP** Inc. — manufacturer of the high-quality GSE you've used for decades — is now **FAST** Global Solutions. We grew our team and workspace by 60% last year, and we added \$12 million in advanced production equipment throughout 500,000 square feet of workspace. We're ready to partner with you at high speed.

See what else is new at booth **365** during the **International Airport GSE Expo**

*FIND OUT HOW THE WORLD'S LARGEST NON-POWERED GSE MANUFACTURER IS EVEN BIGGER... AND **FASTER!***

Low equipment availability comes with a cost.

How much are you willing to sacrifice?

Have the equipment
you need on site when
you need it

Avoid costly downtime
with expert technical
assistance

End the guessing
games around
delivery

BETA SUPPLIES RELIABILITY

- Highest flow rates in the industry produce quicker gate turns with less labor
- Less maintenance with gasoline powered cab-over-chassis or no-chassis carts
- Shared modular design across all products lowers fleet maintenance cost
- Industry-leading turnaround times for custom orders
- 24-hour global support from certified technicians
- Onsite support within 12 hours

"BETA delivered in full and on schedule against an extremely aggressive delivery plan that was essential to success at Delta's recent operational expansion."

OLEN, DELTA AIRLINES

Call for available inventory or to discuss custom orders.

Please Join Us For The 3rd Annual GSE Leaders Golf Invitational

Monday, October 17
Las Vegas National
Golf Club
(New Location)
Tee off: 12:30 p.m.

NEW LOCATION!

The Invitational will be held on Monday, October 17, 2016 the day before the International Airport GSE Expo, at the historic Las Vegas National Golf Club, located less than 10 minutes from the exhibition and the world famous Las Vegas Strip. The tournament will be a 4-person best ball with a tee off time of 12:30 p.m. This event is at no charge to qualified attendees for the trade show: includes a light lunch, drinks, golf, door prizes, dinner and trophies.

We encourage you to partake in this incredible opportunity and get involved with the best networking opportunity available at International Airport GSE Expo. This will undoubtedly be the most talked about event of the week, so don't hesitate and secure your place in this magnificent event.

If you have questions about participating or becoming a sponsor, contact:
Missy Zingsheim | 920-563-1665 | missy@aviationpros.com
Brian Piety | 707-469-7243 | brian@pageindustries.com

Juniper can now proudly say that our extensive range of commercial and military wash rigs, together with a tooling list for over 45 engine types, are capable of washing every aircraft engine on the market today. When you add this to the fact that we are able to adapt and modify any of our rigs to a customer's requirements, and we can also give operators the assurance that spare parts will be available for many years to come, then the Juniper system begins to look like a very cost effective option.

Revolutionizing GSE leasing and asset management.

Looking for ways to make doing business easier and more profitable? Then you'll want to take a closer look at Xcēd.

Xcēd Aviation Services is a single source provider of flexible GSE financing and customized asset management services, including:

- Single investor financing
- Short- and long-term lease financing
- Short- and long-term rentals
- Used GSE trade-ins
- Sale and leaseback
- Buying and selling inventory
- Equipment refurbishment
- Refurbishment financing

We're also experts at uncovering hidden assets, which allows us to provide a wide range of incremental asset management service... services most banks and other lessors simply can't or won't offer.

AIRPORTS
INTERNATIONAL

The only show dedicated to ground support equipment

International Airport Equipment Manufacturers' Association (IAEMA) and Ground Support Worldwide are joining forces to produce this not-to-be-missed event, which will bring the entire industry to Las Vegas, Nevada for three days of networking, opportunity and enjoyment.

Register to attend for free*!

PROMO CODE GSW16

*Qualified Attendees (Airlines, Airports, FBOs, Ground Handlers, Military)

Why Attend?

International Airport GSE Expo is the only event solely focused on Ground Support Equipment for aviation.

Atmosphere—Focused, Energized, Informative, Helpful.

Global—Air transportation and ground support are global by nature.

Networking—Visitors and exhibitors are here for only one reason ... the interval between landing and take-off.

Equipment—Get hands-on, kick the tires, go for a drive.

150+ exhibitors!

Maintenance—Think about what can be learned from in-depth conversations with the manufacturers, suppliers, and distributors that know your equipment better than you do.

Technology—There is always something new to be discovered that can have a direct impact on the success of your business.

We design, manufacture and stock a wide range of workholding and positioning components, as well as rollers and bumpers for materials handling, assembly and manufacturing. The workholding and positioning components provide for faster speeds and feeds, and their modular and economical replaceable wear surfaces extend the life of expensive jigs, fixtures, jaws and clamping mechanisms. Our line includes serrated grippers, low-profile edge grippers, single point and straight serration grippers.

Global Aviation Services does GSE and fleet maintenance for the global transportation network that carries goods and passengers by air. Our customers are airports, passenger airlines, cargo airlines and the companies that provide services to airports and airlines. Founded on four principles- People First, Integrity Always, Quality Service and Trust Earned, with a sense of urgency.

Simple Complexity

GLOBAL
GROUND SUPPORT

540 East 56 Highway • Olathe, KS 66062
globalgroundsupport.com • 913.780.0300

MIDAS is a telemetry system that allows anyone with approved access to view live data on any of their deicing trucks with any Internet-connected device. This advanced telemetry system can be purchased on new vehicles or retrofitted on any manufacturers' equipment. MIDAS monitors performance, location, surface areas, aircraft ID's, operators and more.

NEW WAYS TO STAY COOL AND CONNECTED

PC Air Hoses, Cable Inspection Test Kit, and Replaceable Contact Section from J&B Aviation

**STAY COOL**

Count on our PCA Hoses to keep your aircraft cool no matter what the configuration. A wide range of Elbows, Tapered Adapters and Support Mechanisms maximize versatility, while the J&B Aviation Flat Duct design is both durable and flexible.

KEEP CONNECTED

Connect securely to any 400 Hz power aircraft with our new Replaceable Contact Section, featuring a durable tapered edge and made from composite for an extended service life.

Facilitate inspections with our new Cable Inspection Test Kit, containing our Aircraft Connector Tester, Pin Gauge Tester, Tensionometer, Imaging IR Thermometer, Wire Cleaning Brushes and more – all packed in a rugged locked case.

www.lektro.com
sales@lektro.com

LEKTRO is the global leader in electric, towbarless aircraft towing vehicles. Their patented universal cradle gently lifts the nose gear and allows for unparalleled towing maneuverability. LEKTRO invented the first towbarless towing vehicle in 1967 and continues to pioneer leading technologies for safer, more efficient aircraft towing. Their all-electric towing vehicles come in five different model series that can handle aircraft ranging from the smallest piston aircraft to narrow body airliners like the Boeing 737 and Airbus A321. LEKTRO has more OEM towing certifications and is used by more OEMs than any other towbarless tug manufacturer. It's not just a tug, it's a LEKTRO—the ultimate aircraft towing vehicle.

Lift-A-Loft Corporation

RAMPMASTER

Rampmaster manufactures Modular Aircraft Refuelers in sizes ranging from 1,000 to 17,500 gallon capacity. The trucks represent a life cycle solution to Refueling trucks, the tanks and pumping systems can be used over and over again by replacing the chassis when it wears out. This eliminates the need to buy complete refuelers in the future. Rampmaster also offers hydrant truck solutions along with a Regenerator that fuels aircraft without the need for fossil fuels, no engine or transmission. (A truly green solution to fueling.)

It's That Time Of Year

I can hardly believe that it's already August. I'm not really sure where the year has gone, or the summer for that matter.

We all must be having a great time because everywhere I go, everyone I talk to, they're all busy and positive about what is happening in the industry right now.

Of course, I am excited to see you all in Las Vegas in TWO months, this year's show has beyond exceeded my expectations and I hope that it does for you as well. We currently have 165 exhibitors who take up 60,000 square feet of indoor and outdoor space, as well as 9 companies with equipment in our demonstration area.

With success comes opportunity. Alex Wendland, the editor of *Ground Support Worldwide* has found an opportunity that he could not pass. I tried to get him to stay in this glamorous world of GSE that I love so much, but he could not be per-

suaded. His loss...er, I mean...he will be missed very much, and I have enjoyed working and traveling with him for the last 14 months. The September issue of *Ground Support Worldwide* will be his last, so please join me in wishing him the very best as he takes on another role.

As always, thanks for reading.
